Ward-based clinical assessment of both elective and emergency patients

As FY1 you will be part of a team managing patients with complex medical and functional problems including confusion, falls, immobility and sepsis, alongside patients with general medical problems.

All F1 Doctors in hospital posts will generally be ward based during the normal working day and would be expected to deliver the daily medical care for all their Consultants patients.

Burton Hospitals NHS Foundation Trust
1. General Surgery/Endocrine
Foundation Year 1 - Trauma & General Surgery
Dr Barrow, Mr Hanover
Burton Hospitals NHS Foundation Trust

To perform surgical procedures under the supervision of consultants, including thoracic, vascular, and urological surgery.

To manage medical emergencies and trauma patients, including assessment and management of critical care patients.

The majority of the F1's time will be spent looking after the cardiology team's inpatient following emergency admissions. There will also be a number of elective admissions, and the F1 doctor will be involved in multidisciplinary care and team work.

On-call commitments include assessments of patients in the Emergency Department and on the wards, with a focus on vascular surgery and urology.

On-call requirements: 1 in 9

0800 - 1600 or 0900 - 1700 Mon - Fri

Daily Ward rounds

On-call: Seven days a week, including evenings, weekends, and public holidays.

2. General Surgery/Colon
Foundation Year 1 - Trauma & General Surgery
Dr Barrow, Mr Hanover
Burton Hospitals NHS Foundation Trust

To perform surgical procedures under the supervision of consultants, including thoracic, vascular, and urological surgery.
