

## West Midlands Central Foundation School

Individual Placement Description – Heartlands Hospital

Placement	FY1 Paediatrics	
The department	Paediatrics	
The type of work to expect and learning opportunities	More of a learning opportunity - daily wards rounds where you get to see complicated endocrine disorders. Have to do weekly bisphosphonate infusions. Good placement to learn paediatric prescribing. Get to see and help in many endocrine tests. Twice daily handovers - where you will have to go and handover patients to the registrars on call. Great opportunity for doing an audit.	
	Formal training opportunities	Informal training opportunities
	Grand round (held weekly)	Handovers (held daily)
	Regional teaching day (held monthly)	Consultant led ward round (held daily)
	Journal club (held monthly)	10+ Outpatient clinics
	Audit programme (held monthly)	MDTs
	Morbidity and mortality meetings (held monthly)	E-learning modules
	Resuscitation scenarios (held monthly)	Teaching Friday (first tier)
	External courses	
Where the placement is based	Birmingham Children's Hospital	
Supervisor(s) for the placement	T B C	
Main duties of the placement	See 'Type of work'	
Typical working pattern in this placement	See 'Type of work'	
Employer information	Birmingham Children's Hospital NHS Foundation Trust provides a comprehensive service to children, young people and their families. We are one of the leading paediatric teaching centres in the country.	

It is important to note that this description is a typical example of your placement and may be subject to change.
