The main duties are learning key practical aspects of public health, supporting public health incidents as they happen, reviewing at least one aspect of evidence in detail, performing an audit of relevance to the department and the wider health economy as well as getting involved in practical research.</p> <p>Placements are designed to be as flexible as possible, working with either (or both) primary and secondary care. there is the opportunity for on the spot as well as planned learning. all trainees have regular supervision with their formal supervisor as well as the public health team</p>
Where the placement is based	Walsall
Supervisor(s) for the placement	Dr Myers
Main duties of the placement	9 - 5 unless there is a public health incident when time is flexible. No on-call
Typical working pattern in this placement	
Employer information	<p>The Royal Wolverhampton NHS Trust is one of the leading acute and community trusts in the region. Employing more than 6,700 staff we provide a comprehensive range of community, acute and specialist services for the people of Wolverhampton, the wider Black Country, South Staffordshire, North Worcestershire and Shropshire. Nationally recognised for providing excellence in healthcare and one of only 7 Trusts in the UK chosen to be a showcase hospital for infection prevention we are justifiably proud of our achievements to date. Patient safety and quality of care are at the top of our agenda. We have achieved NHSLA level 3 for all our services.</p>

It is important to note that this description is a typical example of your placement and may be subject to change.
