

West Midlands Central Foundation School

Individual Placement Description – University Hospitals Coventry and Warwick

Placement	FY2 Acute Medicine
The department	Acute Medicine
The type of work to expect and learning opportunities	The care of acute medical emergencies. There is a ward and tutorial based teaching programme. FY2 dedicated weekly two hour teaching Grand Round
Where the placement is based	University Hospital
Supervisor(s) for the placement	
Main duties of the placement	The trainee will join the acute medical team and gain experience in inpatient and outpatient care, working with the team on the Clinical Decision Unit / short-stay admissions. There will be a daily senior ward round and the trainee will participate in the acute medical clinic.
Typical working pattern in this placement	The trainee will participate in the acute on-call rota.
Employer information	UHCW Trust has PFI status and more than £400 million has been invested to build a new 1200 bed hospital on the Walsgrave Site. The main part of the new hospital opened in October 2006. All major specialties are represented. The Clinical Science Building opened on the Walsgrave site in November 2003. This is a state of the art postgraduate and undergraduate facility with an outstanding library and study area, and extensive high quality seminar and clinical teaching rooms.

It is important to note that this description is a typical example of your placement and may be subject to change.
