

## West Midlands Central Foundation School

### Individual Placement Description – George Eliot Hospital

<b>Placement</b>	FY2 Haematology
<b>The department</b>	Haematology
<b>The type of work to expect and learning opportunities</b>	The trainee will gain experience in interpretation of haematology investigations, blood and marrow films, chemotherapy prescription and administration, anticoagulant monitoring, blood transfusion and haematological procedures including bone marrow biopsy. There are multidisciplinary meetings on Tuesday and Wednesday, medical lunchtime meeting and an x-ray meeting both once a week.
<b>Where the placement is based</b>	George Eliot Hospital
<b>Supervisor(s) for the placement</b>	Dr Mekkali Narayanan
<b>Main duties of the placement</b>	The trainee will undertake ward rounds and attend clinics as part of the haematology team. There is a commitment to provide clinical cover for the laboratory and for the clinical service as required by the consultant haematologist. Middle grade cover will be provided by the staff grade.
<b>Typical working pattern in this placement</b>	There will be provision for twilight (11-7pm) cross cover duties in acute medicine one day a week.
<b>Employer information</b>	George Eliot Hospital has been an NHS Trust Hospital since 1994. The majority of the Hospital is based in modern purpose built accommodation. Currently there are 350 beds divided between the major specialities. The Postgraduate Medical Centre has excellent library facilities, a clinical skills training unit and a computer skills training centre. There is a very strong commitment to junior staff training

It is important to note that this description is a typical example of your placement and may be subject to change.
