

West Midlands South Foundation School

Individual Placement Description – Worcestershire Acute Hospitals NHS Trust

Placement	FY2 Urology
The department	Urology
The type of work to expect and learning opportunities	A very busy Countywide Urology department covering population of 600,000. Understanding the management of common and more complex patients with Urological disease. There will be ample opportunity for those interested in developing a surgical career to access theatres, endoscopy, day case operating and outpatient clinics.
Where the placement is based	Alexandra Hospital, Redditch
Supervisor(s) for the placement	Consultant Urologist
Main duties of the placement	As the majority of our FY2 doctors will have not worked in a Urology department before their learning objectives and duties may overlap those of FY1 colleagues. However our FY2 doctors will already have broad clinical experience from their previous year. We would expect the FY2's to support their FY1 colleagues whilst also looking to consolidate generic clinical skills.
Typical working pattern in this placement	
Employer information	Worcestershire Acute Hospitals NHS Trust provides hospital-based services from three main sites - the Alexandra Hospital in Redditch, Kidderminster Hospital and Treatment Centre , and Worcestershire Royal Hospital in Worcester. The Trust provides a wide range of services to a population of more than 550,000 people in Worcestershire as well as caring for patients from surrounding counties and further afield.

It is important to note that this description is a typical example of your placement and may be subject to change.
